# Stefan Ferriera

## OBJECTIVE

My objective is to promote a healthy environment that would promote continues learning. I aim to build engaging, scalable and reliable solutions to solve problems, while looking to enhance my critical thinking and clean coding.

## EXPERIENCE

**AUG 2019 – JAN 2022**
Cricket Coach | Bedfordview Country Club

**JAN 2022 - AUG 2022**
Junior Software Developer | Umbani Software

**SEP 2022 - PRESENT**
Junior Software Developer | SEESA

I am skilled in a variety of technologies including SQL, Windows Forms, ASP.NET, and Blazor with .NET MAUI. Experienced with front-end technologies such as Bootstrap, custom CSS, and MudBlazor. Strong working knowledge of Microsoft Azure, due to the solutions being hosted in the Azure infrastructure. Some solutions range from business management systems to AI-powered chat bots through AWS AI services.

## EDUCATION

Brandwag, Benoni
2012 – 2016

CTU Training Solutions
2017-2018
Diploma in Project Management

Belgium Campus
2019-2022
Bachelor of Computing

## COMMUNICATION

Collaborated with managers to gather the project requirements. Worked closely with colleagues to support development efforts. Also dealt with support with clients to help with the setup of new projects and support.

## LEADERSHIP

As a developer, I encouraged a collaborative work environment where we would share knowledge and promote professional growth through mentorship.
